

Collaboration Hubs

Code of Conduct

Sustainable Leather Foundation

Industry Led – Consumer Focused

Be Inclusive

We welcome and support representatives within the leather industry from all sectors and levels. This includes, but is not limited to leather manufacturers, traders, subcontractors, chemical companies, machinery companies, associations, educational institutes, NGOs and any other supplier organisations.

We won't all agree all of the time, but disagreement is no excuse for disrespectful behaviour. We will all experience frustration from time to time, but please refrain from personal attacks or derogatory comments. We encourage a productive environment where people feel comfortable enough to express opinion and do not feel threatened or marginalised.

Be Respectful

Be Considerate

To work collaboratively, we all depend on each other to contribute in an equitable, ethical and considerate way. Decisions made in the collaboration hubs will help to structure the future of the Foundation and will affect customers and colleagues so be considerate of the consequences when making decisions. Allow others space to contribute and strive to consider outcomes with a whole industry perspective.

Always conduct yourself professionally and choose your words carefully. Please refrain from discriminatory jokes or language, inappropriate sharing of material and using the collaboration hubs for business other than the purpose we are gathered. Working together with members that have different perspectives will be valuable to understand how we can find the best solutions for a more sustainable leather industry.

Be Responsible
