

SUSTAINABLE LEATHER FOUNDATION

STEPS TOWARDS SUSTAINABLE IMPROVEMENT

1

EVALUATE YOUR CURRENT POSITION

Use aspects and impacts analysis (risk assessment) to support this work. SLF has templates to support our partners.

2

ASSIGN PRIORITIES FOR ACTION

Work with your value chain (suppliers and customers) to align with them on shared areas of focus.

3

ASSIGN THE NECESSARY RESOURCES FOR SUCCESS

Think in terms of finance and people as well as infrastructure and equipment.

4

ACTIVATE A PLAN OF WORK

Use defined timelines, scopes of work and interim milestones to action your improvement plan.

5

EVALUATE RESULTS AND START AGAIN

Record and report on success and also where things didn't work. Use these results to inform the next cycle of improvement. Continuous improvement is a cyclical process.
